S. M. Stevens, of the Firemen's brother-hood, assured the meeting that if the engineers on the other roads centering in Kansas City determined to strike, the firemen would follow to a man.

H. H. Wills, secretary of the general committee of the Chicago & Northwestern railroad, followed Mr. Wilkinson. He said that he had visited Aurora, Mendota, Galesburg, Burlington and Creston and had found all the brotherhood men firm.

In the meeting were representatives from the Kansas City, Ft. Scott & Gulf railroad, the Kansas City, Wyandotte & Northwestern road, the Missouri Pacific, and other roads, All reported their men ready to strike if it was necessary for the success of those now out on the Burlington. The chairman of the grievance committee of the Wyandotte road said his committee was on the ground now and if the signal came he would order all his men out through his officials and the men on his road were working harmoniously. Today, he said, they had refused to move six cars of freight consigned by the Burlington to points over their road. The Burlington had sent three notices to the general manager of the Wyandotte road to take the cars, but that official refused to touch them.

ON THE EVE OF A STRIKE. Kansas City, March 10.—The members of the Switchmen's union, sixteen in number, employed in the yards of the Kansas City. St. Joe & Council Bluffs railroad, and the Hannibal & St. Joseph, both of which are a part of the Burlington system, are on the eve of a strike. This morning they expressed the determination not to work with the engineers now employed by the Burlington. Their reasons are that the danger is so great because of the in-competency of new men that they tear that they are liable to be crippled or killed at any moment. The switchmen are hold-ting meetings and have passed resolutions to the effect that they will uphold the Brotherhood of Engineers and Firetaen. The situation at this point is becoming. aters are liable to develop which will have great effect.

At a meeting of the grievance committee of the Kansas City, Ft. Scott & Gulf railroad held this evening it was decided that if the company persists in handling freightconsigned to the Burlington road, that the engineers and firemen would leave their engineers and firemen would leave their engines on Monday morning. The situation at this point is becoming more interesting every hour. Members of grievance committees are arriving by each train, and the brotherhood men openly say that the crisis will come on Monday morning. At the head-quarters of S. M. Stevens men are reporting hourly and dispatches and letters come thick and fast. The substance of the dispatches is immediately transmitted to Chief Arthur at Chicago. The brother-finally cannot be removed to the dispatched and specific properties. DENVER, March 10.—The striking engineers held a secret session at their hall this afternoon at the conclusion of which notice was issued to the officials of the Denver, Utah & Pacific that all their engineers and firemen would go out toengineers and firemen would go out to-morrow at noon. This road is a narrow guage running from Denver to Lyons, and is controlled by the Burlington by lease and is used by the latter as a feeder to one of the richest coal districts of the state. Quite a number of Burlington cars are standing in the Rio Grande yards billed for California points. All roads billed for California points. All roads centering here refusing to handle them. The situation on the main line of the Burlington remains unchanged.

In it he alludes especially to the marks of sympathy shown him by numerous French visitors at San Remo and expresses the hope that the relations between France and Germany may continue friendly. This response was sent direct from the emperor without consulting with Prince Bismarck. During his interview with King Humbert at the railroad station at San Pier d' Arena this

Mitchell improved at the finish but the referee declared a draw.

LONDON, March 10.—The great fight ended as not one in fifty expected it would end. After thirty-nine rounds, in which the lighter man fully used his advantage under the London prize ring rules, Referee Angle declared the light a draw. The arrangements made last night for the fight were chootic. Mitchell's agent, who was sent over ten days before to secure the ground, was obliged to confess that he failed to procure a suitable spot, whereupon a wrangle ensued and the Sullivan party, rightly or wrongly, charged Mitchell with trying to wriggle out of the fight. Finally the Mitchell party left the choice of ground to Sullivan's backers, who appointed Johnny Gideon, of the Sportsman, who had filled similar offices for Sayers, Dunning, also of the Sportsman, and Oty, the Sportsman's Paris reporter, to select the battlefield. The trio left Amiens last evening for Creil, the pugilists arranging to follow today. Early this morning the two parties proceeded to Baron Rothschild's grounds at Apremont, where a ring was pitched in a cuist soot on good ground. Mitchell Mitchell improved at the finish but the

Sullivan looked determined, but was somewhat thin in the face. When the combatants reached the ring, forty spectators were present. MacDonald and Jack Ashton seconded Sullivan and Baldock and Kilrain seconded Mitchell. Mr. Angele, of the London stock exchange, was referee. Jack Bennett umpired for Sullivan, and Charles Roweld acted in a like capacity for Mitchell. our. Baldock now saw that no definite result was likely to be reached, and he suggested that the fight be declared a draw. The principals agreed to this and the fighters shook hands after battling three hours and eleven minutes. Mitchell showed considerable punishment. There was a great crable punishment. There was a great lump on his jaw, his left eye was bunged up and his body bruised. At the outset Sullivan offered to back himself for \$2.500 but the offer was declined. His backers then offered three to one on Sullivan but found no takers. The party returned to Paris after the fight. It is reported that Sullivan and Mitchell and thirteen other persons have been ar-

THE BENEFIT. THE BENEFIT.

The benefit given Mr. Lodge last night at the Main street was in every respect a grand success. The program, as announced, was carried out to the complete satisfaction of all present, and formed a very pleasing and entertaining performance. Mr. Lodge was presented with a handsome gold-headed cane by the pressclub of the city, and was also given a very neat and attractive badge by his many admirers. Mrs. Lodge, in recognition of her ability as an actress, as well as her high ability as an actress, as well as her high ability as an actress, as well as her high social character, was presented with a beautiful ring. Little Lottle, too, came in for her full share of popular appreci-ation and was given an elegant ring. Mr. Lodge took occasion to return his sincere thanks, in behalf of his wife and child, for the kind and generous treatment they had received in the city, and also for the kind recognition of their efforts to please and entertain their friends and parrons. entertain their friends and patrons.
